PROFESSIONAL SUMMARY

Senior Full Stack Engineer with more than 10 years of experience developing enterprise software, Warehouse Management Systems (WMS), cargo & logistics platforms, and hardware-integrated solutions. Experienced in Laravel, FastAPI, Astro, React, REST API, enterprise database design, Docker, Kubernetes, Huawei Cloud, CI/CD, and Linux infrastructure. Strong analytical and architecture skills with extensive experience translating business requirements into scalable software solutions.

CORE COMPETENCIES

- Enterprise Application Development
- Warehouse Management System (WMS)
- Cargo & Logistics System
- System Architecture & Solution Design
- REST API & System Integration
- Database Design (MySQL, PostgreSQL, SQL Server, MongoDB, Redis)
- Docker • Kubernetes • Huawei Cloud • GitLab CI/CD
- Laravel • FastAPI • Astro • React

PROFESSIONAL EXPERIENCE

PT Anugerah Tangkas Transportindo

Full Stack Engineer | 2023 – June 2026

- Developed and enhanced logistics, cargo, and warehouse management applications.
- Designed backend services using Laravel and FastAPI.
- Designed enterprise databases and REST API integrations.
- Worked closely with operations teams to digitize logistics processes.

PT Himalaya Indo Karya

Full Stack Engineer | 2021 – 2023

- Developed enterprise web applications.
- Built Smart Lock System integrated with Kerong Smart Lock devices.
- Developed Passport Printing System for Immigration and Embassy operations.
- Integrated software with hardware devices and REST APIs.
- Performed deployment, maintenance, and production support.

PT Chang Jui Fang Indonesia

Software Developer | 2019 – 2021

- Developed and maintained enterprise web applications.
- Implemented new business features and optimized system performance.
- Performed testing, debugging, and production support.

PT Anugerah Tangkas Transportindo

Software Developer / IT Infrastructure | 2013 – 2019

- Developed internal logistics applications.
- Managed Windows/Linux servers and network infrastructure.
- Implemented security, backups, automation, and user support.

TECHNICAL SKILLS

Backend: PHP (Laravel, Lumen), Python (FastAPI, Flask)

Frontend: Astro, React, JavaScript, TypeScript, Alpine.js, jQuery

Database: MySQL, PostgreSQL, SQL Server, MongoDB, Redis

Cloud & DevOps: Huawei Cloud, Docker, Kubernetes, GitLab CI/CD, GitHub, Linux

Integration: REST API, RabbitMQ, WebSocket

KEY PROJECTS

- Warehouse Management System (WMS)
- Cargo & Logistics Management System
- Smart Lock Integration (Kerong)
- Passport Printing System for Immigration & Embassy
- Enterprise Database Design & System Integration

EDUCATION

Universitas Raharja

Bachelor Degree – Information Systems

2014
